LED ЛЕНТА

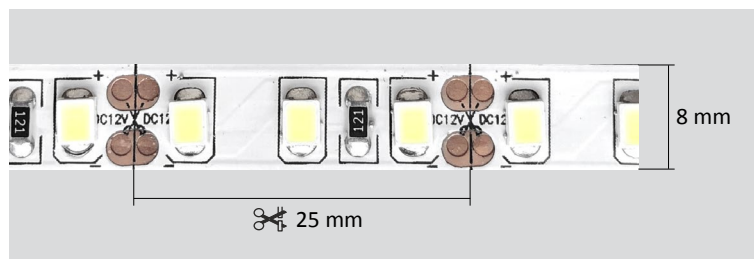

успешно заменяет традиционные ламповые источники света. Она используется для основного освещения помещений. А так же для подсветки интерьеров и для уличного освещения. В транспорте, в витринах торговых помещений, для ландшафта и в качестве света для промышленных и складских зданий.

LED ПРОФИЛЬ

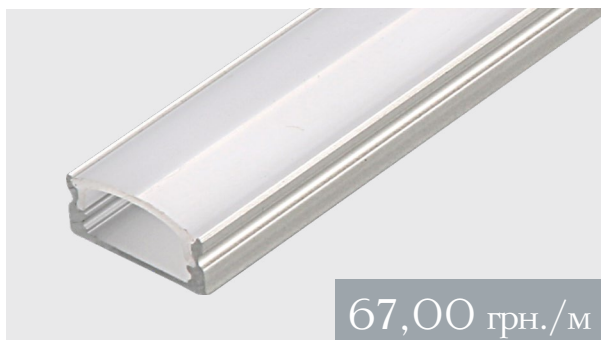

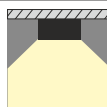

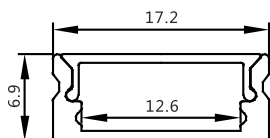

светодиодная лента в сочетании с LED профилем из алюминия представляет собой полноценный осветительный прибор. Такой способ установки обеспечивает длительный срок эксплуатации конструкции, за счет высокого защитного эффекта против механических повреждений. Форма профиля позволяет гармонично вписать конструкцию в любой дизайн помещения.

БЛОКИ ПИТАНИЯ

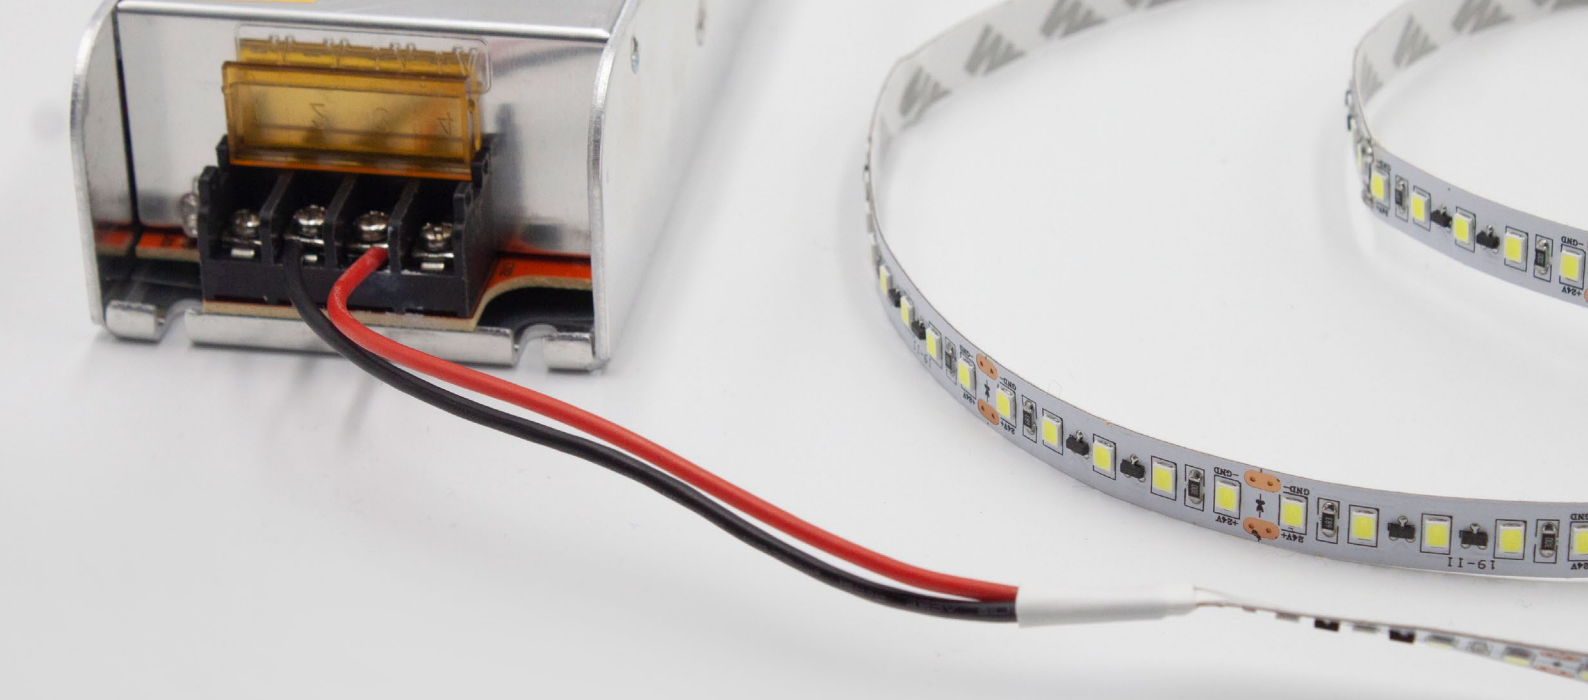

основная функция - снабжение светодиодов электрической энергией нужных параметров. Кроме того они стабилизируют напряжение и необходимы для выполнения определенных защитных функций. Позволяют увеличить срок эксплуатации светодиодных источников света, позволяя тем самым добиться максимальной производительности и эффективности работы всей системы.
